### CAPS & HATS...A WIG ALTERNATIVE

*If you or someone you know is suffering hair loss due to chemotherapy from cancer or any other medical condition, this product was designed just for that reason.*

*Hello my name is Amy Niceswanger and I am a two year breast cancer survivor. My initial diagnosis came as*

*quite a shock but losing my hair during chemotherapy was almost as devastating. I tried wigs but just found them so uncomfortable, hot, and itchy. As a wig alternative, my mother and I made a hat with hair attached. I thought it was fabulous. It was so great to just get up in the morning, jump in the shower, and throw on my cap. I wore it to work, social functions, doctors appointments, and basically everywhere I went. It was so comfortable as opposed to wearing the wig.*

*I now believe through Gods strength, that I have been guided in this direction of helping others during this difficult time in their lives.*

*Breast cancer and other dreadful diseases must come to an end. Until a cure is found, we want to make you as comfortable as possible.*

*Please contact us today and we will be happy to assist you with your needs during this delicate time in your life.*

*Blessings,*
